B. A. FAHNESTOCK'S ERMIFUGE.

WHY 18 IT THAT SO MANY CHILDREN die under the age of five years? That a large proportion of children die under that age, has long been a subject of remark, and without a satisfactory cause ascertained, it is certain. Also it is known that worms exist in the human system from its earliest infancy; therefore parents, especially mothers, who are more constantly with their children, cannot be too observing of the first symptoms of worms; for so surely

as they exist, can they be SAFELY AND CERTAINLY removed from the most DELICATE INFANTS, by the
